The recently completed 101 Bay Harbor Islands townhouse development is bringing in Pordes Residential as the exclusive onsite sales and marketing firm to sell out the remaining residences of the 12-home project.

New photos of the project are in too, with a glimpse inside the four-bedroom, three-and-a-half bathroom homes with floor-to-ceiling windows and private terraces. The homes at 1010 Bay Harbor Terrace each include a rooftop space with barbecue, summer kitchen, and Jacuzzi.

The kitchens are equally luxurious with quartz countertops and high-end appliances. Floorplans feature approximately 2,300 square feet of interior space plus a two-car garage and outdoor entertainment space, and prices range from the mid \$900,000s to \$1.89 million. Take a look at the modern living spaces and charming rooftop in the photos below.
